◆ CONTENTS:

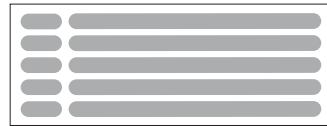

Privacy Filter

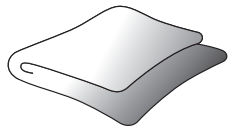

(Note correct placement – notch should be in upper-right corner.)

Mounting Tabs

Double-Sided Tape

Micro-Fiber Cleaning Cloth

◆ **CARE:** To clean the filter, gently wipe it with the enclosed micro-fiber cleaning cloth. Do not rub the filter heavily or bend it, as this could damage its special coating.

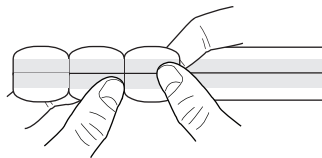

BEFORE INSTALLATION:

Carefully clean monitor surface with enclosed micro-fiber cleaning cloth.

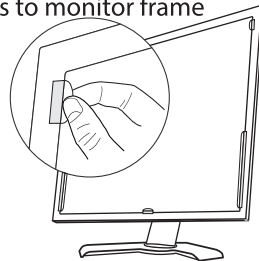

A. INSTALLATION WITH MOUNTING TABS

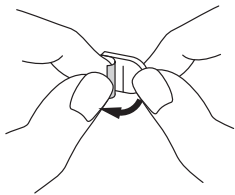

1. Separate mounting tabs

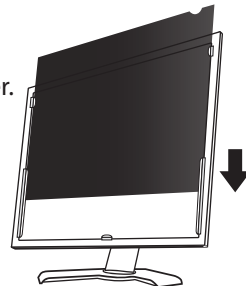

3. Attach tabs to monitor frame

2. Remove protective film from each tab

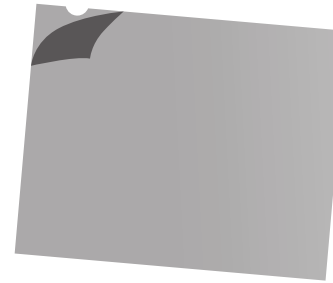

4. Remove protective film from back of filter. Slide filter between tabs and screen. Tab guides will hold the privacy filter in place.

B. INSTALLATION WITH DOUBLE-SIDED TAPE

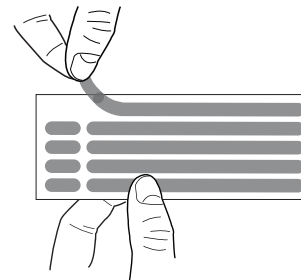

1. Remove protective film from back of filter.

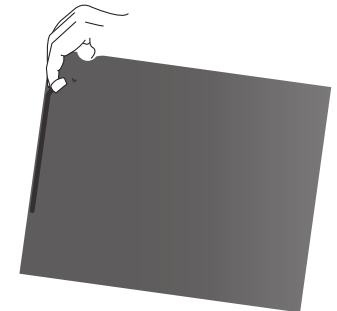

2. Peel off a short adhesive strip and pick up the edge of a longer one.

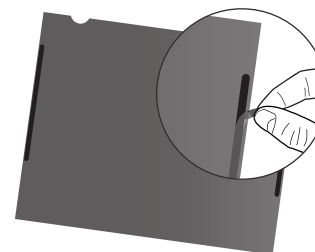

3. Slowly peel off the longer double sided tape.

4. Apply the longer adhesive strips to the rear side of the privacy filter close to the edge.

5. Press the long adhesive strip and peel off the top blue protection layer.

6. Attach privacy filter starting from the bottom.
